Re: YOUR exciting new profit tool

Dear Friend,

Well, as I just finished putting my 7 month-old baby boy to sleep for his mid morning nap, I thought I'd check my email. Guess what? **Ten new orders.** A cool \$300 since about 3 hours ago when I first checked my email today.

Not a bad profit considering I spent the morning bouncing little Junior on my knee **instead of working the grind like everyone else I know.**

You see, I didn't even need to get up this morning and do all of the "marketing" stuff that seems to be on everyone's mind today. I just let my **automated profit pullers** do the work for me.

Oh, you'd like to hear more about that, huh? Especially how **YOU can setup the \*exact\* same system I use to generate your own automated profits!** Am I right? Read on...

## How YOU Can Launch Your Own Free Profit Pulling eBooks That Explode Your Profits Like a Fireworks Display

Let me start by sharing an **honest-to-goodness** \*real\* figure with you. During the past six months I have earned over \$31,000 that came in DIRECTLY because of my free eBooks. Now, that's not to mention additional orders the customers purchased after their initial purchase. That is based on tracking sales **generated exclusively by offers inside the eBooks.**

Now, what's important to you right now isn't what I've made, but rather what **you want to make.** So, let's cut to the chase. You can now duplicate the exact system I use for creating these eBooks and launch your own successful eBook marketing campaign. **Profit Pulling eBooks** is a step-by-step manual for creating eBooks that \*really do\* produce results. Just a few of the things you'll learn are...

- An 8-step, paint-by-numbers formula for **developing eBooks that get results.**
- How to **make sure your eBook gets noticed** among the traffic jam of free eBooks available on the internet.

- 4 **quick and easy ways** to make sure your eBook provides quality content.
- A couple of checklist questions to determine if you are **including valuable information in your eBook**.
- **6 simple suggestions** for trimming off the fat and providing the meat people are wanting to feast on.
- 9 easy ways to use your eBooks as **your own 24 hour a day, nonstop salesman**.
- How to actually **see sales produced and profits earned from** free eBooks.
- How to **get your eBook downloaded thousands of times** in a short period of time.
- 4 easy ways to include bonuses in your ebook and how to **use them to produce more sales**.
- How to **instill a sense of urgency** in the mind of the reader that prompts them to **order NOW**.
- One of the **most least used techniques in eBook marketing that is also one of the most important**.
- Why presentation is **just as important as information** when it comes to eBooks.

But, that's just the beginning of this 81 page manual that only includes what you need to know. ***Profit Pulling eBooks*** actually consists of TWO key sections...

- Tutorial 1: How to CREATE a profit pulling eBook. This section focuses on WHAT to include in your eBook that virtually guarantees your profits.
- Tutorial 2: How to quickly and easily COMPILE an eBook. This section shows you how to use the most powerful eBook compiler online to create your own features-loaded eBooks.

In this one-of-a-kind manual you will learn the secrets that the "gurus" use everyday to **generate thousands of dollars in profits**. The great thing about eBooks is that they create a level playing field. ANYONE (whether you've been online for years or are just starting out) can profit from the viral marketing power of eBooks.
